FULL-STACK WEB DEVELOPMENT

"Certified Full-Stack Web Developer with hands-on experience in front-end and back-end technologies."

Analytical professional with expertise in developing, testing, and deploying dynamic web applications. Skilled in managing end-to-end website development projects from conceptualization to deployment with a keen focus on optimizing user experience and system performance. Proficient in integrating various APIs and databases to create seamless, scalable web solutions. Committed to leveraging modern web development practices to deliver responsive and efficient applications. Eager to apply skills in front-end and back-end development, along with a strong foundation in programming languages and frameworks, to create dynamic and user-friendly web solutions.

TECHNICAL SKILLS

Web Development • User Experience • Database Management • Responsive Web Design • Software Engineering and Testing
Front and Backend Tech • Data Protection Solutions • Version Control • Integration Testing and Coding • Automated Testing
Web Security • Project Management • Team Leadership • Technical Troubleshooting • Cross Browser Compatibility
Problem-Solving • High Attention to Detail • Adaptability • Strategic Communicator • Analytical Thinking

EDUCATION & CREDENTIALS

UCF Coding Bootcamp – Full Stack Web Development Certification, University of Central Florida, Orlando, FL (2024)

- **Coursework:** Web Development Fundamentals, Database Management Systems, Software Engineering Principles, Algorithms and Data Structures, User Interface Design, Operating Systems Horiseon, Cuisine Compass, Note Taker, Password Generator, Professional README Generator, TaskWiz, Workday Scheduler, Weather Dashboard

KEY PROJECTS

- **E-Commerce Website:** Developed a full-stack e-commerce platform using the MERN stack, featuring user authentication, a product catalog, a shopping cart, and an API-integrated payment gateway. Designed responsive UI/UX optimized for desktop and mobile devices.
- **Task Manager Application:** Built and deployed task management web application using the specific framework, implementing CRUD operations, user authentication, and authorization; integrated with MySQL database for data persistence on the Heroku platform.
- **Portfolio Website Achievement:** Created personal portfolio website using HTML, CSS, and JavaScript, incorporating custom animations and transitions for enhanced visual engagement, and optimized performance and accessibility to elevate user experience.
